
ADVANCED-IQ

HazMatIQ Classroom Training

BACKGROUND: HazMatIQ Advanced course builds upon the knowledge gained from our flagship Above the Line/Below the Line program. Advanced-IQ is totally customizable, allowing blocks of instruction that best fulfill the needs of the host location. The customizable course will cover:

1. A brief review of the foundational Above the Line/Below the Line System.

2. Using complex scenarios, students will be challenged to think critically, expanding on the knowledge and skills gained from the Above the Line/Below the Line system.

3. Going Beyond Red 1! Red 1, is the play for responding to unknowns, no match, or not sure. Utilizing an additional chart, students will be able go from a Red 1 to the correct “play”, using chemical trade names, synonyms and/or chemical formulas.

TRAINING AUDIENCE: Technician Level

PREREQUISITE: Above the Line/Below the Line Training preferred, but not necessary.

CLASS SIZE: 30

COURSE LENGTH: 8-Hour
